No Quorum Again.

Another attempt was made yeslerdsy of termoon to secure a quorum for a joint meeting of the Council Committees on Railrads and Ordinances, but it was a failure. Measre, Wilkinton, Hall, Miller and Emith were the only ones that appeared. There was the usual turnout of lawyers and engineers to look after the interests of their respective roads. The object of the meeting was to consider and prepare for Council the new Pr. W. & Ky. ordinance. No further opposition is looked for in this matter. The Pr. W. & Ky., the Otho River and the Wheeling & Harrisburg roads have arrived at an agreement, and the ordinance will be amended by the committee and presented to Council in such risburg roads have arrived at an agreement, and the ordinance will be amended by the committee and presented to Council in such a shape as all desire it to pass.

#### ANOTHER CELEBRATION By the Miller Glee Club of a Member

That well known organization, the Mille Glee Club, had mother one of those grand banquets with which it always celebrates the banquets with which it always celebrates the event of one of its members joining the ranks of the bonedicts, at Schwalb's First National last evening. These banquets, by the way, are always at the expense of the member who deserts the club for married life. The latest lose was Mr. Obarles Menkemeller, who is now on his bridal tour. An account of his marriage to Miss Clara Stephens, of Barnsaville, at Little Washington has been published. From Chicago he sent orders to Schwalb to get up his best, and the order was followed out. The table was loaded down with good things, and good cheer was not lacking. President High Klari presided, and about twenty others were present. After supper a committee was appointed to send a congratulatory dis-

#### THE NEW PIRE ENGINES

To be Called the "Niegara" and Kept a the United House, The Committee on Fire Department met a the Cily Building last evening and after auditing the usual monthly bills proceeded to decide what the name of the new fire to decide what the name of the new ire engine should be and where it should be located. It was unanimously decided to call it the "Nisgara;" the name is an appropriate one as the engine is one that will be capable of throwing an immense amount of water. Various other names were suggested among them "Bimper," but as soon as "Nisgara" was suggested it was adopted. It was decided that the new engine should be placed at the United house. This is no more than right; the United is the engine to be retired from service; there are more valerves another. It was also the opinion of he committee that the plan of placing a second-hand engine in a house whose engine and been condemned and putling a new en-gine in the second-hand one's place was a
